Ada Sarp Sahin

Electronic & Communications Engineering Student
Politecnico di Torino

About Me:

Electronic and Communications Engineering student at Politecnico di Torino with a strong interest in analog electronics, embedded systems and audio technologies. I enjoy designing hardware that combines signal processing, circuit design and human interaction, and I am seeking opportunities in engineering and research where I can contribute while continuing to learn.

Education:

Politecnico di Torino (Polytechnic University of Turin) 2024-Present
B.Sc. Electronic & Communications Engineering

Technical Projects:

PoliWhanm (PoliTeK) - Wireless Wah Guitar Pedal (prototyping)
A mixed signal electronic design project in which I took part as a hardware engineer and the project manager.
More information on it:

- PoliTeK Website (https://politek.polito.it/projects/)
- GitHub (https://github.com/PoliTeK/PoliWhanm)

Levissi - AR Application for History Education (done in 2024)
A Flutter-based AR mobile application that took part in the Turkish National Science Fair and the competition organized by the Council of Europe, "HISTOLAB AWARD FOR INNOVATIVE SCHOOL PROJECTS IN HISTORY EDUCATION"
More information on it:

- Competition Website (https://histolab.coe.int/activities/school-award)

Collection of Audiovisual Projects (currently being updated)
A collection of audiovisual projects that are published for self interest and learning practice.
More information on it:

- Personal Portfolio (https://voltage01.github.io/ada.github.io/)
- Instagram Page (https://www.instagram.com/there_is_a_platypus/)

Team & Leadership:

Cofounder @ CASVAL (Create & Share Value) 2022-2024
A Turkish student hub founded by myself and my teammates with the vision of connecting young students (highschool and university) with aspiring educators, business owners, entrepreneurs, etc. In this vision many events were organized:

- TEDxYouth@FethiyeBFL - Head of Production
- TEDxAtapark - Head of Production
- TEDxBeşkazaMeydanıYouth - Head of Production

More information on it:

- CASVAL Website (https://casval.org)

Projects Supervisor @ PoliTeK 2026-Present

After taking part in the PoliWhanm project as the project manager I have joined the Coordination Team as the Projects Supervisor in which I take part in the development of every project as a hardware/software engineer and I make sure of the development progress.
More information on it:

- PoliTeK Website (https://politek.polito.it/people/)

Technical Skills:

Electronics

- Circuit Simulation (LTspice, MATLAB)
- PCB Design (KiCad)
- Analog Circuit Design
- Lab Skills (Soldering, oscilloscope, multimeter, etc.)

Programming

- Scientific Simulation (MATLAB, Python)
- Website and Mobile App Development (Fluttter, HTML, CSS)
- Microcontrollers and Embedded Systems Programming (C, C++)
- Creative Coding (Max/MSP, TouchDesigner)

Version Control & Documentation

- Research Documentation (LaTeX)
- Project Documentation (Git)

Language:

- Turkish: Mother Tongue
- English: C1
- Italian: B1
